PROFESSIONAL SUMMARY

Full Stack MERN Developer with hands-on experience building responsive and scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing RESTful APIs, integrating databases, and creating modern user interfaces with clean, maintainable code. Passionate about solving real-world problems, learning new technologies, and delivering high-quality web applications.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Styled Components

Backend: Node.js, REST API design

Databases: MongoDB, Supabase, Firebase

State Management: Redux Toolkit, React Query

Tools & DevOps: Git, GitHub, Vercel, Netlify, Railway, Postman, VS Code

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

April 2025 – May 2026

Full Stack Zone Private Limited — Islamabad, Pakistan

- Developed full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Built and integrated RESTful APIs to enable seamless communication between frontend and backend services.
- Implemented secure JWT-based authentication and authorization for user login and protected routes.
- Designed reusable React components and responsive user interfaces using modern JavaScript and Tailwind CSS.
- Managed MongoDB databases using Mongoose, performing CRUD operations and optimizing queries.

Front End Web Developer

Jan 2025 – Mar 2025

Eziline Software House — Rawalpindi, Pakistan

- Developed responsive and user-friendly web applications using React.js, JavaScript (ES6+), HTML5, and CSS3.
- Built reusable React components and implemented responsive designs using Tailwind CSS and Styled components.
- Integrated RESTful APIs and implemented client-side routing using React Router.
- Managed application state using Redux Toolkit and React Query for efficient data fetching and caching.
- Developed and validated forms using React Hook Form to enhance user experience.
- Collaborated with designers and backend developers to deliver high-quality, production-ready web applications.

SELECTED PROJECTS

ShopHub — E commerce Platform — A full-stack e-commerce application featuring role-based access control, secure JWT authentication, admin and user dashboards, product and category management, shopping cart, order processing, Stripe payment integration, and Cloudinary image uploads. Built with React.js, Node.js, Express.js, MongoDB, and Tailwind CSS.

Wild Oasis — Hotel Management App — A hotel management application featuring cabin, booking, and guest management user authentication, dashboard analytics, and CRUD operations. Built with React.js, Supabase, React Query, Styled Components, and React Hook Form.
